

Telos Corporation Wins New Xacta Contract with U.S. Department of Commerce Office of Inspector General

October 1, 2026

Selection of full FedRAMP High-authorized, AI-enabled SaaS platform expands federal adoption of Xacta

ASHBURN, Va., Oct. 01, 2026 (GLOBE NEWSWIRE) -- [Telos Corporation](#) (NASDAQ: TLS), a leading provider of cyber, cloud and enterprise security solutions for the world's most security-conscious organizations, today announced a new contract award from the U.S. Department of Commerce, Office of Inspector General (OIG), for its full FedRAMP Class D (High)-authorized Xacta® software-as-a-service (SaaS) platform.

Under the 12-month contract, Commerce OIG will use Xacta 360™, Xacta.io™ and Xacta.ai™ to automate cyber governance, risk and compliance (GRC) activities and support its Federal Information Security Modernization Act (FISMA) requirements.

Xacta 360 will manage the National Institute of Standards and Technology (NIST) Risk Management Framework lifecycle, including control implementation, assessments and authorization documentation. Xacta.io will integrate security data to support continuous monitoring and remediation tracking, while Xacta.ai will assist with control narrative drafting, evidence analysis and documentation review. Telos will also provide implementation, integration, configuration and training to support deployment and adoption.

"Federal agencies need more than a tool for producing compliance documents – they need a platform that helps security teams sustain compliance and make informed risk decisions," said John B. Wood, chairman and chief executive officer, Telos. "Xacta combines decades of federal risk management experience with practical AI assistance in a secure SaaS environment. That combination gives agencies a strong foundation for modernizing cyber compliance while allowing their teams to focus more of their expertise on managing risk."

The Commerce OIG award follows Telos' recently announced Xacta awards supporting the Department of Health and Human Services, the National Archives and Records Administration, the Office of Naval Intelligence and the Air Force Intelligence Community. Together, these selections demonstrate continued adoption of Xacta across federal civilian, defense and intelligence organizations.

Forward-Looking Statements

This press release contains forward-looking statements which are made under the safe harbor provisions of the federal securities laws. These statements are based on the Company's management's current beliefs, expectations and assumptions about future events, conditions and results and on information currently available to them. By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. The Company believes that these risks and uncertainties include, but are not limited to, those described under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" set forth from time to time in the Company's filings and reports with the U.S. Securities and Exchange Commission (SEC), including its Annual Report on Form 10-K for the year ended December 31, 2025, as well as subsequent and future filings and reports by the Company, copies of which are available at <https://investors.telos.com> and on the SEC's website at www.sec.gov.

Although the Company bases these forward-looking statements on assumptions that its management believes are reasonable when made, the Company cautions the reader that forward-looking statements are not guarantees of future performance and that the Company's actual results of operations, financial condition and liquidity, solution and contract performance, and industry developments, may differ materially from statements made in or suggested by the forward-looking statements contained in this release. Given these risks, uncertainties and other factors, many of which are beyond its control, the Company cautions the reader not to place undue reliance on these forward-looking statements. Any forward-looking statement speaks only as of the date of such statement and, except as required by law, the Company undertakes no obligation to update any forward-looking statement publicly, or to revise any forward-looking statement to reflect events or developments occurring after the date of the statement, even if new information becomes available in the future. Comparisons of results for current and any prior periods are not intended to express any future trends or indications of future performance, unless specifically expressed as such, and should only be viewed as historical data.
