

Third Quarter 2025 Financial Results

November 10, 2025

Telos Corporation Reports 116% Year-Over-Year Revenue Growth and Raises Outlook for the Second Half of 2025

- **Revenue Exceeds Guidance:** Delivered \$51.4 million of Revenue, exceeding guidance, due to a stronger than previously forecasted second half in Telos ID, as well as a more favorable weighting of second-half revenue to the third quarter.
- **Substantial Growth:** Revenue grew 116% year-over-year, driven by 154% growth in Security Solutions, primarily due to the ongoing expansion of large programs in Telos ID.
- **Healthy Gross Margins:** GAAP Gross Margin was 39.9%, expanding 2,672 bps year-over-year, primarily due to impairment charges in 3Q 2024; Cash Gross Margin¹ was 44.8% and expanded 78 bps year-over-year.
- **Strong Operating Leverage:** GAAP Net Loss was \$2.1 million; Adjusted EBITDA¹ increased \$14.2 million year-over-year to \$10.1 million, exceeding guidance, primarily due to Revenue outperformance in Telos ID, higher than forecasted Cash Gross Margins¹ in all lines of business, and lower Adjusted Operating Expenses¹. Due to significant year-over-year growth in Revenue and Cash Gross Profit¹, combined with lower Adjusted Operating Expenses¹, year-over-year Incremental Adjusted EBITDA Margin¹ was 51.5%.
- **Robust Cash Flow Margins:** Cash Flow from Operations was \$9.1 million or 17.8% of Revenue and Free Cash Flow¹ was \$6.6 million or 12.8%¹ of Revenue.
- **Continued Share Repurchases:** Deployed approximately \$3.6 million to repurchase 584,213 shares at a weighted average price of \$6.23 per share.
- **Financial Guidance:** Fourth quarter and implied full-year guidance reflect a stronger than previously forecasted second-half outlook, a more favorable weighting of second-half revenue to the third quarter, and potential for short-term administrative delays due to the federal government shutdown.

Financial Guidance for the Fourth Quarter and Implied Full Year Ending December 31, 2025

	Fourth Quarter	Full Year
Revenue	\$44.0 million - \$46.3 million	\$162.0 million - \$164.3 million
Year-Over-Year Growth	67% - 76%	50% - 52%
Adjusted EBITDA ²	\$4.0 million - \$5.7 million	\$14.8 million - \$16.5 million
Adjusted EBITDA Margin ²	9.1% - 12.3%	9.2% - 10.1%

¹ Cash Gross Margin, Cash Gross Profit, Adjusted Operating Expenses, Adjusted EBITDA, Adjusted EBITDA Margin, Incremental Adjusted EBITDA Margin, Free Cash Flow and Free Cash Flow Margin are non-GAAP financial measures. Refer to "Non-GAAP Financial Measures" below.

² Adjusted EBITDA and Adjusted EBITDA Margin are non-GAAP financial measures. The Company has not provided a reconciliation to the most directly comparable GAAP measure to these forward-looking non-GAAP financial measures because certain items are out of the Company's control or cannot be reasonably predicted. Accordingly, reconciliations of forward-looking Adjusted EBITDA and Adjusted EBITDA Margin are not available without unreasonable effort.

¹ Adjusted Gross Profit, Adjusted Gross Margin, Cash Gross Profit, Cash Gross Margin, Adjusted Net Income (Loss), EBITDA, Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted EPS, Free Cash Flow, and Free Cash Flow Margin are non-GAAP financial measures. Refer to "Non-GAAP Financial Measures" below.

² For a period of net loss, potentially dilutive shares are not included in the calculation of diluted earnings (loss) per share, because to do so would be anti-dilutive. This is adjusted to reconcile GAAP earnings (loss) per share (excluding potentially dilutive shares) with non-GAAP earnings per share (including potentially dilutive shares).

Forward-Looking Statements

This summary contains forward-looking statements which are made under the safe harbor provisions of the federal securities laws. These statements are based on the Company's management's current beliefs, expectations and assumptions about future events, conditions, and results and on information currently available to them. By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. The Company believes that these risks and uncertainties include, but are not limited to, those described under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" set forth from time to time in the Company's filings and reports with the U.S. Securities and Exchange Commission ("SEC"), including its Annual Report on Form 10-K for the year ended December 31, 2024, and its Quarterly Reports on Form 10-Q, as well as future filings and reports by the Company, copies of which are available at <https://investors.telos.com> and on the SEC's website at www.sec.gov.

Although the Company bases these forward-looking statements on assumptions that its management believes are reasonable when made, the Company cautions the reader that forward-looking statements are not guarantees of future performance and that the Company's actual results of operations, financial condition and liquidity, and industry developments may differ materially from statements made in or suggested by the forward-looking statements contained in this summary. Given these risks, uncertainties, and other factors, many of which are beyond its control, the Company cautions the reader not to place undue reliance on these forward-looking statements. Any forward-looking statement speaks only as of the date of such statement and, except as required by law, the Company undertakes no obligation to update any forward-looking statement publicly, or to revise any forward-looking statement to reflect events or developments occurring after the date of the statement, even if new information becomes available in the future. Comparisons of results for current and any prior periods are not intended to express any future trends or indications of future performance, unless specifically expressed as such, and should only be viewed as historical data.

Non-GAAP Financial Measures

In addition to our results determined in accordance with U.S. GAAP, we believe the non-GAAP financial measures of EBITDA, Adjusted EBITDA, EBITDA Margin, Adjusted EBITDA Margin, Incremental Adjusted EBITDA, Incremental Adjusted EBITDA Margin, Adjusted Net Income (Loss), Adjusted Earnings Per Share ("EPS"), Adjusted Gross Profit, Adjusted Gross Margin, Cash Gross Profit, Cash Gross Margin, Adjusted Operating Expenses, Cash Operating Expenses, Free Cash Flow and Free Cash Flow Margin are useful in evaluating our operating and cash flow performance. We believe that this non-GAAP financial information, when taken collectively with our GAAP results, may be helpful to readers of our financial statements because it provides consistency and comparability with past financial performance and assists in comparisons with other companies, some of which use similar non-GAAP financial information to supplement their GAAP results. The non-GAAP financial information is presented for supplemental informational purposes only, should not be considered a substitute for financial information presented in accordance with GAAP, and may be different from similarly-titled non-GAAP measures used by other companies. A reconciliation is provided below for each of these non-GAAP financial measures to the most directly comparable financial measure stated in accordance with GAAP.

Telos believes that EBITDA, EBITDA Margin, Adjusted EBITDA, Adjusted EBITDA Margin, Incremental Adjusted EBITDA, Incremental Adjusted EBITDA Margin, Adjusted Net Income (Loss), Adjusted EPS, Cash Operating Expenses, and Adjusted Operating Expenses provide the Board of Directors, management and investors with a clear representation of the Company's core operating performance and trends, provide greater visibility into the long-term financial performance of the Company, and eliminate the impact of items that do not relate to the ongoing operating performance of the business. Further, Adjusted EBITDA is used by the Board of Directors and management to prepare and approve the Company's annual budget, and to evaluate the performance of certain management personnel when determining incentive compensation. Adjusted Gross Profit, Cash Gross Profit, Adjusted Gross Margin and Cash Gross Margin provide management and investors a clear representation of the core economics of gross profit and gross margin without the impact of non-cash expenses and sunk costs expended. Telos uses Free Cash Flow and Free Cash Flow Margin to understand the cash flows that directly correspond with our operations and the investments the Company must make in those operations, using a methodology that combines operating cash flows and capital expenditures. Further, Free Cash Flow may be useful to management and investors in evaluating the Company's operating and cash flow performance and liquidity, and the Board of Directors uses this measure to evaluate the performance of certain management personnel when determining incentive compensation. Telos believes these non-GAAP financial measures facilitate the comparison of the Company's operating and cash performance on a consistent basis between periods by excluding certain items that may, or could, have a disproportionately positive or negative impact on the Company's results of operations in any particular period. When viewed in combination with the Company's results prepared in accordance with GAAP, these non-GAAP financial measures help provide a broader picture of factors and trends affecting the Company's results of operations.

EBITDA, Adjusted EBITDA, EBITDA Margin, Adjusted EBITDA Margin, Incremental Adjusted EBITDA, Incremental Adjusted EBITDA Margin, Adjusted Net Income (Loss), Adjusted EPS, Adjusted Gross Profit, Adjusted Gross Margin, Cash Gross Profit, Cash Gross Margin, Adjusted Operating Expenses, Cash Operating Expenses, Free Cash Flow and Free Cash Flow Margin are supplemental measures of operating and cash flow performance that are not made under GAAP and do not represent, and should not be considered as an alternative to gross profit, gross margin, net (loss) income, earnings per share, operating expenses or net cash flows (used in) provided by operating activities, as determined by GAAP.

The Company defines EBITDA as net (loss) income, adjusted for non-operating (income) expense, interest expense, provision for (benefit from) income taxes, and depreciation and amortization. The Company defines Adjusted EBITDA as EBITDA, adjusted for stock-based compensation expense, impairment loss on intangible assets, and restructuring expenses (adjustments). The Company defines EBITDA Margin, as EBITDA as a percentage of total revenue. The Company defines Adjusted EBITDA Margin as Adjusted EBITDA as a percentage of total revenue. The Company defines Incremental Adjusted EBITDA as the net change between current and prior year Adjusted EBITDA. The Company defines Incremental Adjusted EBITDA Margin as Incremental Adjusted EBITDA as a percentage of the net change between current and prior year total revenue. The Company defines Adjusted Net Income (Loss) as net (loss) income, adjusted for non-operating (income) expense, stock-based compensation expense, impairment loss on intangible assets, and restructuring expenses (adjustments). The Company defines Adjusted EPS as Adjusted Net Income (Loss) divided by the weighted-average number of common shares outstanding for the period. The Company defines Adjusted Gross Profit as gross profit, plus stock-based compensation expense, impairment loss on intangible assets, and restructuring expenses charged under cost of sales. The Company defines Adjusted Gross Margin as Adjusted Gross Profit as a percentage of total revenue. The Company defines Cash Gross Profit as Adjusted Gross Profit, plus depreciation and amortization. The Company defines Cash Gross Margin as Cash Gross Profit as a percentage of total revenue. The Company defines Adjusted Operating Expenses as operating expenses, adjusted for stock-based compensation expenses and restructuring expenses (adjustments). The Company defines Cash Operating Expenses as Adjusted Operating Expenses, adjusted for depreciation and amortization, and capitalized software development costs. Free Cash Flow is defined as net cash (used in) provided by operating activities, less net purchases of property and equipment, and capitalized software development costs. The Company defines Free Cash Flow Margin as Free Cash Flow as a percentage of total revenue.

EBITDA, Adjusted EBITDA, EBITDA Margin, Adjusted EBITDA Margin, Incremental Adjusted EBITDA, Incremental Adjusted EBITDA Margin, Adjusted Net Income (Loss), Adjusted EPS, Adjusted Gross Profit, Adjusted Gross Margin, Cash Gross Profit, Cash Gross Margin, Adjusted Operating Expenses, Cash Operating Expenses, Free Cash Flow, and Free Cash Flow Margin each has limitations as an analytical tool, and you should not consider any of them in isolation, or as a substitute for analysis of results as reported under GAAP. Among other limitations, each of EBITDA, Adjusted EBITDA, EBITDA Margin, Adjusted EBITDA Margin, Incremental Adjusted EBITDA, Incremental Adjusted EBITDA Margin, Adjusted Net Income (Loss), Adjusted EPS, Adjusted Gross Profit, Adjusted Gross Margin, Cash Gross Profit, Cash Gross Margin, Adjusted Operating Expenses, Cash Operating Expenses, Free Cash Flow and Free Cash Flow Margin does not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments, does not reflect the impact of certain cash and non-cash charges resulting from matters considered not to be indicative of ongoing operations, and does not reflect income tax expense or benefit. Other companies in the Company's industry may calculate Adjusted EBITDA, Adjusted EBITDA Margin, Incremental Adjusted EBITDA, Incremental Adjusted EBITDA Margin, Adjusted Net Income (Loss), Adjusted EPS, Adjusted Gross Profit, Adjusted Gross Margin, Cash Gross Profit, Cash Gross Margin, Adjusted Operating Expenses, Cash Operating Expenses, Free Cash Flow and Free Cash Flow Margin differently than Telos does, which limits its usefulness as a comparative measure. Because of these limitations, neither EBITDA, Adjusted EBITDA, EBITDA Margin, Adjusted EBITDA Margin, Incremental Adjusted EBITDA, Incremental Adjusted EBITDA Margin, Adjusted Net Income (Loss), Adjusted EPS, Adjusted Gross Profit, Adjusted Gross Margin, Cash Gross Profit, Cash Gross Margin, Adjusted Operating Expenses, Cash Operating Expenses, Free Cash Flow, nor Free Cash Flow Margin should be considered as a replacement for gross profit, gross margin, net (loss) income, earnings per share, operating expenses, net cash flows (used in) provided by operating activities, or operating cash flow margin as determined by GAAP, or as a measure of profitability. Telos compensates for these limitations by relying primarily on the Company's GAAP results and using non-GAAP measures only for supplemental purposes.

⁽¹⁾ The stock-based compensation expense to EBITDA is made up of stock-based compensation expense for the awarded RSUs, PSUs, and stock options, and other sources. Stock-based compensation expense for the awarded RSUs, PSUs and stock options was \$7.4 million and \$19.8 million for the three and nine months ended September 30, 2025, respectively, and \$8.4 million and \$12.4 million for the three and nine months ended September 30, 2024, respectively. Stock-based compensation expense from other sources was \$1.9 million and \$4.4 million for the three and nine months ended September 30, 2025, respectively, and \$0.5 million and \$1.6 million for the three and nine months ended September 30, 2024, respectively. The other sources of stock-based compensation consist of accrued compensation, which the Company intends to settle in shares of the Company's common stock. However, the Company has the discretion to determine whether this compensation will ultimately be paid in stock or cash up until the date at which it is paid. Any change to the expected payment form would result in out-of-quarter adjustments to this add back to Adjusted EBITDA.

⁽²⁾ The restructuring expenses include severance and other related benefit costs (including outplacement services and continuing health insurance coverage), external consulting and advisory fees related to implementing the restructuring plan.

⁽¹⁾ The stock-based compensation expense to EBITDA is made up of stock-based compensation expense for the awarded RSUs, PSUs, and stock options, and other sources. Stock-based compensation expense for the awarded RSUs, PSUs and stock options was \$7.4 million and \$19.8 million for the three and nine months ended September 30, 2025, respectively, and \$8.4 million and \$12.4 million for the three and nine months ended September 30, 2024, respectively. Stock-based compensation expense from other sources was \$1.9 million and \$4.4 million for the three and nine months ended September 30, 2025, respectively, and \$0.5 million and \$1.6 million for the three and nine months ended September 30, 2024, respectively. The other sources of stock-based compensation consist of accrued compensation, which the Company intends to settle in shares of the Company's common stock. However, the Company has the discretion to determine whether this compensation will ultimately be paid in stock or cash up until the date at which it is paid. Any change to the expected payment form would result in out-of-quarter adjustments to this add back to Adjusted Net Income (Loss).

⁽²⁾ The restructuring expenses include severance and other related benefit costs (including outplacement services and continuing health insurance coverage), external consulting and advisory fees related to implementing the restructuring plan.

⁽³⁾ For a period of net loss, potentially dilutive shares are not included in the calculation of diluted earnings (loss) per share, because to do so would be anti-dilutive. This is an adjustment used to reconcile GAAP earnings (loss) per share (excluding potentially dilutive shares) with non-GAAP earnings per share (including potentially dilutive shares).
